## EDUCATION

### Georgia Institute of Technology

Atlanta, GA

*B.S. in Computer Science - GPA 4.0/4.0*

*Expected Graduation December 2026*

- Concentrating in *Information Internetworks & Devices*
- Relevant Courses: Data Structures & Algorithms, Honors Algorithms, Computer Organization & Programming, Computer Systems & Networking, Intro to AI, Objects & Design, Networking, Database Systems, ECE Design Lab, Mobile Ubiquitous Computing, Linear Algebra, Discrete Math

**Technical Skills:** Java, Python, C, JavaScript, HTML, CSS, PHP | React, Django, Flask, LangChain

## EXPERIENCE

### Meta

May. 2025 - Aug. 2025

*Software Engineer Intern / Instagram Ads Rendering Platform Team*

*Menlo Park, CA*

- Developed and launched a critical testing system for Instagram Story ads that safeguards over **1/3 of Instagram's revenue** by detecting issues before they reach production.
- Prevented potential losses of **millions** in daily ad revenue by ensuring stability across Instagram's most profitable and high-traffic rendering paths.
- Directly supported platform monetization and advertiser trust by maintaining consistent ad delivery performance for **billions** of users.

### Georgia Institute of Technology – College of Computing

Jan. 2025 - Present

*Data Structures and Algorithms Teaching Assistant*

*Atlanta, GA*

- Collaborate with a team of **50 TAs** to support the academic success of **1,000+ students** each semester.
- Lead **75-minute recitation sessions** weekly, reinforcing lecture concepts and facilitating problem-solving.
- Conduct office hours to provide personalized guidance on coursework, lecture materials, and exam content.

### Georgia Institute of Technology – School of Interactive Computing

Aug. 2024 - Present

*Undergraduate Researcher*

*Atlanta, GA*

- Researching how LLMs can generate explainable outputs and adapt in real-time to user feedback, while designing a model tailored to **neurodivergent job seekers** to support inclusive interactions.
- Developing a fully functional prototype with *LangChain* and *Flask*, integrating dynamic prompt engineering, customized user workflows, and real-time response optimization to enhance accessibility for neurodivergent users.

## PROJECTS

### Digital Twin Platform for Sustainable Bottling Plant | *Next.js, TypeScript, Web Development*

- Built a business engagement platform for a digital twin of a sustainable bio-plastic bottling plant.
- Led the software subgroup, contributing to frontend development using **Next.js**.

### Restaurant Reservation System | *Java, Javalin, Pebble templates, Bootstrap, HTML, CSS*

- Implemented a fully functioning full-stack restaurant reservation system app using object and design principles.

### Spotify Listening Statistics | *Streamlit, Spotify API, Python*

- Built a *Streamlit* web app using the *Spotify API* to display user listening history statistics.

## LEADERSHIP

### Georgia Tech Grand Challenges

Aug. 2024 - Present

*Paid Program Facilitator*

*Atlanta, GA*

- Mentor **200+ students** and oversee **20+ team coaches** while collaborating with professors to guide year-long UN SDG projects and enhance program curriculum.

### Meet Your Neighbors Non-Profit Organization

May 2021 - Aug. 2023

*Founder/CEO*

*International/Remote*

- Facilitated cultural exchange by hosting events and service projects for **100+ members across 5 continents**.
- Led meetings and managed team of **20**, website, social media, and secured sponsorships from *Hershey* and *ACEI*.
